

On the Road Again

Demon

Headed out the jam
Loaded in the van
Back on the road again
Going out my mind
Tryin' to make It on time
Back on the road again

To tired to sleep
To stoned to eat
Don't think I'll make it tonight
Need another shot
Straight rock 'n' roll
I guess I'm feelin' alright

Just another band on the road
On the road
Just another band on the road
On the road

Another crazy gig
What a way to live
Back on the road again
Drinking with the boys
Making to much noise
Back on the road again

To tired to sleep
To stoned to eat
Don't think I'll make it tonight
Need another shot
Straight rock 'n' roll
And I'll be feelin' alright

Just another band on the road
on the road
(back on the road again)
Just another band on the road
On the road
Oh oh oh back on the road
Oh oh oh back on the road

Headed out the jam
Loaded in the van
Back on the road again
Going out my mind
Tryin' to make it on time
Back on the road again

To tired to sleep
To stoned to eat
Don't think I'll make it tonight
Need another shot
Straight rock 'n' roll
And I'll be feelin' alright

Just another band on the road
On the road

(back on the road again)
Just another band on the road
On the road
(back on the road again)

Just another band on the road
On the road
(on the road)
Just another band on the road
On the road
(back on the road again)

Just another band on the road
On the road
(on the road)
Just another band on the road
On the road
(back on the road again)

Just another band on the road
On the road
