

Shine A Light

Demon

Chorus

Shine a light, the whole world is waking
Shine a light and we'll all be free
Come alive the whole world is waking
Shine a light on me

Set the course for far off places
We're leaving tonight
Take your message to the masses
We're leaving tonight
All around the world is waking
Waking up to a brand new day
Somewhere outside the sun is shining
People smiling they've something to say

Chorus

Find yourself it's time for changes
It's all down to you
Find the reason to believe in
It's all down to you
All of a sudden everything's brighter
So much clearer I see the light
There's a need for a new direction
This is the time
We got something to say

Chorus
