

Spaced Out Monkey

Demon

You're a Monkey

Star trekker, it's getting better
Space cadet did you get my letter
Don't give a shit, we've got the monolith
It's in our hands and we're on a future trip
Night caller, smooth talker
You're messing with the real moonwalker
Gonna fly, touch the sky
It's gonna happen on the fourth of July

You're a monkey, you're a monkey
You're a monkey, you're a monkey

Thrill seeker, bent preacher
Hallelujah there's a lesson I can teach yer
Got a rocket in my pocket
I'm gonna launch it and you can't stop it
Science fiction, it's my addiction
Got all the comics and a Klingon assistant
Bad dudes, drug store
You're going boldly where you ain't been before

I'm a crazy spaced out monkey
I'm a cosmic superman
We're crazy spaced out monkeys and we don't give a damn

You're a monkey, you're a monkey

Space shuttle, streetcar
I'm gonna take you up to Venus and Mars
Prize fighter, billionaire
They're haunted by the same nightmare
Apemen, John Glenn
Take me back to warp factor ten
Magnetic shield, force field
Look into the skies and all will be revealed

You're a monkey, you're a monkey
You're a monkey, you're a monkey

Evolution, world pollution
Clean up your act that's my solution
Gold miner, lonely diner
Invaders are a comin' so you better get a hiding
Black hole, brothers with soul
Puff Daddy Chuck Berry Nat King Cole
Mr Spock, Captain Kirk
Beam me up Scotty and let's get to work

I'm a crazy spaced out monkey
I'm a cosmic superman
We're crazy spaced out monkeys and we don't give a damn

I'm a crazy spaced out monkey
I'm a cosmic superman
We're crazy spaced out monkeys and we don't give a damn

You're a monkey, you're a monkey
You're a monkey, you're a monkey
