

Now Is The Time for Love

Deniece Williams

Darling, move a little closer to me
Darling, there are the stars
And a great big moon shining above
Let me hold you close to me
We could feel so heavenly
Let me love you

We know every rule of love there is
We know, and we both know
Love is made up of some give and take
Plus heartache
Let's not waste a perfect night
Over some small foolish fight
Let me love you

Now is the time for love
Now is the time for loving
Now is the time for love
Let me hold you close to me
We could feel so heavenly
Let me love you

Can you find it in your heart, my dear
Can you forgive and forget
All my past mistakes have no regrets, ooh...
Let me hold you close to me
We could feel so heavenly
Let me love you

Now is the time for love
Now is the time for loving
A little missin'
A little hollerin', baby
Now is the time for love
Let's not waste a perfect night
Over some small foolish fight
Let me love you

Now is the time for love
A little missin'
A little rushin', baby
Now is the time for loving, baby
Now is the time for love
Let me hold you close to me
I wanna feel a little heavenly
Let me love you

Now is the time for love...
