

## Things in Life

Dennis Brown

It's not everyday we're gonna be the same way  
There must be a change somehow  
There are bad times and good times too  
So have a little faith in what you do  
Cause you don't seem to realize  
The things you've got to face in life  
Today you're up, tomorrow you're down  
So thank God that you're still around town

Though we've got to work like slaves  
Just to eat a piece of bread  
But as we go along each day we'll find  
Happiness to sooth the mind cause  
It's not everyday we're gonna be the same way  
There must be a change somehow  
There are bad times and good times too  
So have a little faith in what you do
