

Leave In Silence

Depeche Mode

Am **F** **Am**
I've told myself so many times before
F **Am**
But this time I think I mean it for sure
G **C**
We have reached a full stop
D
Nothing's gonna save us from the big drop

Reached our natural conclusion
Outlived the illusion
I hate being in these situations
That call for diplomatic relations

Dm
If I only knew the answer
Or I thought we had a chance
Or I could stop this

Am
I would stop this thing from spreading like a cancer

Adim
R: What can I say? (I don't want to play) anymore
Dm
What can I say? I'm heading for the door
Em
I can't stand this emotional violence
Am **Adim** **Dmi** **Em** **Am**
Leave in silence

We've been running around in circles all year
Doing this and that and getting nowhere
This'll be the last time
(I think I said that last time)

If I only had a potion,
Some magical lotion
That could stop this, I would stop this
I would set the wheels in motion

R: What can I say?...
