

Plain Sight

Derek Webb

Maybe we were wrong
But what if we were right
It's not so hard to see
Baby close your eyes

I know you're afraid
Let's make no promises
'Cause who can trust a heart
Let's just test a hypothesis

But like gravity you know it's true no matter how you feel
So take my hand and baby let's make a deal

Plain sight
It's where you've been hiding, baby
In plain sight
There's nowhere i'd rather hide than in plain sight with you

All my friends showed up
They heard it in my voice
And like a funeral
They didn't have a choice but to agree

That everything considered, I should run
So take my hand baby, let's bang that drum

Plain sight
It's where you've been hiding, baby
In plain sight
There's nowhere i'd rather hide than in plain sight with you

If seeing is believing
Then I've lost my religion
'Cause I just couldn't see it
Until I watched you go
Then you appeared just like a ghost in...

Plain sight
It's where you've been hiding, baby
In plain sight
There's nowhere i'd rather hide than in plain sight with you
