

I'm that man who wants to be the one
To take your pain away every night and day
I'm here to light your way cuz there's nobody else
To stay to make you feel okay

Never tell me there's no chance
For me to be with you
Don't wanna act a fool
I'm pretty sure it makes no sense
For you to make me wait
It can be too late

Seems like love is just a game that

We can't play, we can't play
And just keep on asking more than we give away
I go insane, go insane
Anytime you look at me
I can't touch you...

I'm that man who wants to be the one
To make you smile again just unplanned
I'm here to raise my hand standing in crowd
And scream "Here I am!"

Never tell me there's no hope
For us to make heaven on earth
Let's prove we can
Baby that's the only road
For us to try to walk
So don't be afraid

Seems like love is just a game that

We can't play, we can't play
And just keep on asking more than we give away
I go insane, go insane
Anytime you look at me
I can't touch you...

People say that love should hurt but
I don't give a damn about it
Seems like love is just a game that

We can't play, we can't play
And just keep on asking more than we give away
I go insane, go insane
Anytime you look at me
I can't touch you...
