

I Need You

Deuce

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied

Wondering around like an aimless fool
You don't look happy you don't look cool
Just a bag and the clothes you wear
The lights are on but there's nobody there

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied

Changing my ways and my attitude
For the selfish people, they have no clue
I'm kind hearted and bitter smile
There's an easy march down this road that I'm on

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied

Show me the way show me the way
Just show me the way show me the way
Just show me the way show me the way
Just show me the way show me the way

I need you to show me the way
Every day it's stronger and stronger
I need you in every way
What can I say to keep you satisfied
