On The Bible

Oh oh oh yeah

Because I need you there I will swear on the bible (I will swear) On the bible I will swear on the bible

From the day I saw you I just had to be with you Only you, and only with you From the moment you said yes It was you and nothing less Kiss after kiss after kiss after kiss Oh oh oh yeah

On the bible I will swear Swear to love you And I will hope, cherish and obey Because I need you there I will swear on the bible (I will swear) On the bible (I need you there) I will swear on the bible

From the moment I saw you I just knew that it was you Only you, it had to be you From the moment you said yes It was you and nothing less Kiss after kiss after kiss after kiss Oh oh oh yeah

On the bible I will swear Swear to love you And I will hope, cherish and obey Because I need you there I will swear on the bible (I will swear) On the bible (I need you there) I will swear on the bible

I can make this promise If I was really honest I'd rather live for today Come on girl, lets runaway If you read my mind I am your temptation It's soft and sweet for you to be temptation Throw caution to the wind Lets dance, lets sing Deuce
