

Surface Air

Deuce

Breathing the surface air
I feel that everyone's alone
And I can hold on tightly
Through all this pain
You seem to go away

It's only me and you today
I feel
All the rest of this gone away
Gone away

So let me run
Where the sun
Is gone
I'm feel alone
It's taking me so long to know
Where the sun is gone
I'm feel alone
It's taking me so long to know

Seeing you walk away
It's hurting me to play this game
I felt so lost and lonely
So much I wanted
You to say to me

It's only me and you today
I feel
All the rest of this gone away
The things we used to be

So let me run
Where the sun
Is gone
I'm feel alone
It's taking me so long to know
Where the sun is gone
I'm feel alone
It's taking me so long to know

So let me run
Where the sun
Is gone
I'm feel alone
It's taking me so long to know
Where the sun is gone
I'm feel alone
It's taking me so long to know
