

## Suds & Soda

dEUS

Your head come on is dead and gone it might as well be said so  
long  
It's suds and soda a brain decoder and can I wait for my decoder  
Get off get up you son of pop the light below is bright on top  
It's suds and soda a smile decoder and can I get yeah what I ordered?  
And there's always something in the air, sometimes, suds & soda  
mix ok with beer  
Can I, can I break your sentiment  
You're just a monument, can't see no precedent  
Just wanna shout what the fuck  
Jimmy Dean is Halloween like kerosene for dee dee scene  
It's suds and soda a brain decoder and can I skip this thing I  
ordered  
Get off get up you son of pop the light below is bright on top  
It's suds and soda a vibe decoder and can I get yeah what I ordered?  
And there's always something in the air, sometimes, suds & soda  
mix ok with beer  
Can I, can I break your sentiment  
(To me) you're just a monument, can't see no precedent  
Just wanna shout what the fuck  
And there's always something in the air  
Your face come on is dead and gone, you might as well be said so  
long  
It's suds and soda a brain decoder and can I wait for my devotee  
Get off get up you son of pop the light below is bright on top  
It's suds and soda a smile decoder and can I skip yeah what I ordered?  
And can I break your sentiment?  
So can I break your sentiment, so can I break your sentiment  
So can I break your sentiment, so can I break your sentiment  
So can I break your sentiment, so can I break your sentiment  
So can I break your sentiment, so can I break your sentiment  
So can I break your sentiment, so can I break your sentiment Friday,  
Friday, Friday, Friday,  
Friday, Friday, Friday
