

Wake Me Up Before I Sleep

dEUS

Wake me up before I sleep and I'll promise that I'll concentrate

On only the last frame

Cover only one sound

Some kinda sweet, weird kinda strange around me

Wake me up before I sleep can't you see too many colors here,
Colors there

Colors everywhere

Cover only one ground

The blackest of blacks I don't want to surround me

There's nothing I can say, that isn't gonna be

There's nothing I can do, that isn't gonna be a mistake

Wake me up before I sleep now

I haven't had an inch of what I thought I got

From this awful high

Cover me in one dye

Just lie here with me we'll let the train go by

There's nothing I can say, that isn't gonna be

There's nothing in my way, I know it's gonna be a mistake
