

All Your Beautiful Trees

Devics

How many times will you keep
Hitting your head against the wall
'Til you realize
It just makes you fall

All your beautiful trees
Bring me to my knees
I wish I could stay here
And make a little heaven with you here

How many times will you go back with her
'Til you realize it will never work
Now look what you've gone and done
Can't you see she's not the one

All your beautiful trees
Bring me to my knees

Now look what you've gone and done
Can't you see she's not the one

I wish I could stay here
Make a little heaven with you here

Baby I'm so good for you
And you know it's true
