

# Song For A Sleeping Girl

Devics

I had to take  
To see it close  
But you're already there  
Right next to me  
But would you ever fly  
Out of a place to be

You breathe in slowly  
And let you hold me  
I loved you so many times  
When you were next to me  
You weren't here in the place  
I wanted you to see

This is our song  
Full of silence  
Sleep we knew  
She wants nothing  
But to wake  
To find you there

But once you whisper  
We fade in mourning/morning  
And we look at her  
And her sleeping face  
Full of rest in mind  
And never know my plea

This is our song  
Full of silence  
Sleep we knew  
She wants nothing  
But to wake  
And find you there (you there)
