

## Crawl from the Dark

Devil You Know

Turn my back on the world  
Let my heart grow cold  
I bled the light from my soul  
Like a dying sun

From the ashes resurrected

I must crawl, crawl from the dark  
Crawl before I fall back down  
Back to the start

I started too many fires  
And as I watched them burn down  
Fade the light from my eyes  
Stolen from the sun

From the ashes resurrected

I must crawl, crawl from the dark  
Crawl before I fall back down  
Back to the start

There's still a spark  
And to ignite I've got to go  
Crawl, crawl from the dark

I must crawl, crawl from the dark  
Crawl before I fall back down  
Back to the start

There's still a spark  
And to ignite I've got to go  
Crawl, crawl from the dark
