

Your Last Breath

Devil You Know

We are in motion
Ever changing ever evolving
Make a decision
Death awaits in hesitation

The growing pain of each passing day
Look to those who never turn away

I'm lost in the wake of nothing
Caught up in a storm of the empty truth
This isn't the end or your last breath
The battle for life I will see this through

We will pick up the pieces
It's time to forge ahead
This is a new start
We rebuild it from the ashes

The growing pain of each passing day
Look to those who never turn away

I'm lost in the wake of nothing
Caught up in a storm of the empty truth
This isn't the end or your last breath
The battle for life I will see this through

Pick up the pieces
Forge ahead

We cauterize the wounds
Forever branding me to you

I'm lost in the wake of nothing
Caught up in a storm of the empty truth
This isn't the end or your last breath
The battle for life I will see this through

This isn't the end or your last breath
The battle for life I will see this through
See this through
