I
I wonder why I wonder why
I've
I've come undone

O.K., I know I missed it
The point I mean, I missed it good
And if I could
Good God I would

Now I've seen the way it's headed Down and down, the truth descended Have it here and without worry Baby please, there is no hurry I'm fine

Stay with me Play with me

Ego, it's only a soul

Now I see the way I'm headed Down and down, the youth descended Hell is here, but it hath no fury Like this woman still, there is no worry I'm fine

Stay with me Play with me

Without warning, brain is burning
