

# Midnight Sun

Devin Townsend

Midnight sun is rising  
You had always known  
That my life is yours.

The sun sets in the desert  
And you will always be

Though you're gone, we see the sun!  
I know, cause we're together now.  
In my dream.

The sun sets in the desert, but you will always be...

Though you're gone, we see the sun  
I know, cause we're together now  
I know, cause we're together now  
I know, always...
