

Get It

Devlin

Youngster's coming up
Be smart get your money up
There's a whole big world out here
Don't wait for those that won't hurry up
Don't wait for those that won't hurry up

It's life or death the night is set it's time to rep
My flag's high white and red
Now we're coming on leaps not tiny steps I want a piece of your profit I'm highly vexed
I wanna, put Lewi White back in the forefront
See my boy Raws do his own tour bruv
Turned up tooled up for these sore punks
They all fall then crawl when the sword's swung
Like a right from Tripple G and whilst I'm spitting I cluck for nicotine
I'm fucked admit it
Bottle of brandy and a guillotine watch while I cut their spirits
They say better the devil you know
So make way for the boy again Devlin's home
If I didn't have balls then I'd never be known
But I was raised in this dirty derelict zone so...

Out to all my people now it's time to go and get it
Life will only bring you down at certain times you let it
Out to all my people now it's time to go and get it
You can try defy the man but you just can't defy my message

That the fittest survive
You want equality nothing's equal about life go get it go grind
Winning takes time have vision not blinded by people's sights
Cause you only know what you've been told
Unlock your brain like a pin code
Fuck all the bad minders and insults
Ride out in this bitch like a nympho, your time will come
Watch while I shine like the rising sun I'm at the peak of my life
Signs in front of these eyes don't lie
Mighty Ducks
I'll show you the flying v don't give a shite or three I'm just trying to be
, don't make a gripe with me
D, E, V, I just wanna make change in a life I see so...

Out to all my people now it's time to go and get it
Life will only bring you down at certain times you let it
Out to all my people now it's time to go and get it
You can try defy the man but you just can't defy my message

Youngster's coming up
Be smart get your money up
There's a whole big world out here
Don't wait for those that won't hurry up

Youngster's coming up
Be smart get your money up
There's a whole big world out here
Don't wait for those that won't hurry up

You'll be waiting forever

Rainiest weather
Praying for a day that was better than the last when you wake and you get up
Fed up
Para life's one big set up,
Nothing here can stop us now no tidal wave or flames
It's time we made these blocks as proud as south as Michael Cane
I'm killing em again.

Out to all my people now it's time to go and get it
Life will only bring you down at certain times you let it
Out to all my people now it's time to go and get it
You can try defy the man but you just can't defy my message

There'll be times in life, when you might feel like
Strangling anyone, who's anyone
That's really not so bright, and there'll be times in life
When we can't all fly
I'm as human as anyone
Fuck everyone
Now I'll do me till I die

All the youngster's coming up
Be smart get your money up
There's a whole big world out here
Don't wait for those that won't hurry up
