

## On The Inside

Devo

If you're feeling drained  
By all the stress and strain that you carry around  
Every day  
I'll let you leave it behind  
Gonna change your mind so you lay it down  
And start to play

Left, right, left  
Left right out  
Last stop I know  
Left, right, left  
Left right out  
Now let it go

Be here with me right now  
On the inside  
On the inside  
Woo!

I'm not sure that love's the only answer when the nighttime comes  
Maybe it might take something else that's formed by astral plans  
Like a super sick tweaked out double high speed connection to a secret place  
Or a feeling so strange I don't wonder what'll happen next

On the inside  
On the inside

Left, right, left  
Left right out  
Last stop I know  
Left, right, left  
Left right out  
Now let it go

Be here with me right now  
On the inside  
On the inside  
Woo!
