Time Bomb

I feel like a time bomb Whenever I'm around you Time is running out now The way you're working me out It' just a matter of time Hold on, I wanna change it all up Hold on, get ready for love Lay down, I'm gonna self-destruct I feel good Inside I'm about to go Hey-dee-hey, hey-dee-hey Hydee-ho, hydee-ho Ho-dee-hey, ho-dee-hey-hey The way you're workin me out It's just a matter of time I'm about to go off We're gonna have a good time Come in a little closer I'm gonna turn the lights off I'm gonna light up your room In a serious way Wait, it's not enough anymore Don't say, don't doubt anymore No, wait! you don't know what's in store When to go You'll know You won't be around It's getting too late for talk Time is takin' a walk I think I'm gonna shut down Hold on, I wanna change it all up Hold on, get ready for love Lay down, I'm gonna self-destruct I feel good Inside I'm about to go Hey-dee-hey, hey-dee-hey Hydee-ho, hydee-ho Ho-dee-hey, ho-dee-hey-hey The way you're workin me out It's just a matter of time I'm about to go off I feel like a time bomb Whenever I'm around you Time is running out now
