Infectious agents transmitting their vile contagious filth
Vulgarly imposing their will - unshielded by quarantine

Continents conquered by way of airborne contact
Thus the end of life has reared its ugly head
Land and sea succumbing total inundation
Rancid incubation

Pernicious earthly holocaust targeting all forms of life
Sickness blacker than decay - incurable and unending

Impending darkness - global devastation through biological eradication

Human vectors of transmission chanting blame unto the heavens

Rapidly spreading profane wholesale pandemonium
Miasmatic warfare through large scale contamination

Imperiled landscapes, populations reduced to nothing
Inevitable extinction through deadly propagation
Outbreak of the epidemic, never to recover
Ash and darkness consumes a world void of its inhabitants

Scourge of obsolescence prevails over all existence
Never to be extirpated - thriving in all seasons

Clandestine usurping
Earth now inhospitable to all things that resemble life
Inexorable
Landfills writhing with infection
Stench corrodes the atmosphere
Civilization withers away
