

## Storm #351

DGM

See them fall in love again  
Passion rules the way  
Until the morning after

Everywhere I look someone is  
Hidin  
Tearing their pain alone  
In a freezin emotion

'Cause all my feelings are fadin'  
away  
To make me strong  
But the reason is gone

It's not a dream  
Now or never please don't let me  
Alone  
It's not a dream  
Can you feel it  
There's no reason no through the  
Eyes of the storm

Everything I feel won't last  
Forever  
Now can we stop the dream  
Or kill this illusion
