

## All That We Ever Had

DI-RECT

All I have seen so far  
Fissions of however you are  
Imagine clove a fears  
The sun's sinning brightly  
Through your hair  
All that we ever had  
Would dreams inside my head  
Although we haven't settle up  
Will we meet some day  
Be live

Be soft and gentle please  
Sail across the open sea  
The sliders breeze the cops  
Destroy and all the shadows will contain  
All that we ever had  
Would dreams inside my head  
Still we haven't settle up  
Will we meet some day  
In our lives

Ones in a while  
When the clouds are moving slowly  
Through live upon my eyes  
Makes me realize my feelings  
Our lives

All that we ever had  
Were dreams inside my head  
Still we haven't settle up  
Will meet some day  
All that we ever had  
Just dreams inside my head  
Although we haven't settle up  
Will we meet some day  
In our lives
