

Don't want to know the answers  
Why you don't know where to go  
I don't want to know the reasons  
Why you don't know where you are  
Makin it real, and  
Makin it last  
I just want to feel...  
Free, free to change the world, I'm flying  
I'm free, free to change the world  
If the sky above was fallin  
And the sun was on the wing  
You could hear the angels callin  
You could even hear em sing  
If the time feels right  
Gotta loose the brakes  
Cause it's all about decisions  
That only you can take  
Makin it real, and  
Makin it ast  
It's time to reveal  
We'll get us there...  
I'm free, free to change the world, I'm flying  
I'm free, free to change the world  
If the world is all against you  
And you ve got an aching heart  
You can fear the devil's eyes  
But you can also play his part  
Now the time seems right  
Gotta loose the brakes  
Cause it's all about the future  
That only you can make  
Makin it real, and  
Makin it last  
It's time to reveal  
We'll get us there...  
I'm free, free to change the world, I'm flying  
I'm free, free to change the world  
Free, free to change the world  
I'm free, free to change the world  
Free, I'm free, free to change the world  
I'm free, free to change the world  
I'm free, free to change the world, I'm flying  
Free to change the world
