

# I Can't

DI-RECT

I'm really gonna miss it  
Your hand holdin' mine  
I really want to kiss it  
Your head close to mine  
I really want to feel it  
Our love is almost dead  
Your hands are slipping away, slipping away  
But I stay

It was your fault to say it was love  
but it's your fault playing it was enough  
It's gonna be my time to change the road we're on  
It's gonna be so fine to change the way you talk

(bridge)

And now I live the way you want  
'though it's not the way it's used to be  
And now I want to choose my own way  
like a bird that's flying free

But I can't...(4 times)

I'm really gonna miss you and your beautiful face  
I'm gonna have to kiss you, but I only have a few more days  
I wanna be with you although that's not true  
After all, I need to know what you are going to do

(Bridge)

And now I live the way I want  
'Though it's not the way it used to be  
And now I want to choose my own way  
like a bird that's flying free

But I can't...(4 times)

You're gonna have to take me, for who I really am  
if you really want to break me you gotta know how and when  
you're gonna have to face it, our love is almost dead  
but I don't want to be that wanted man  
That made you sad
