

Don't Look Back

Dia Frampton

As the world spins to the abyss
As we crumble, I'll take the hit
So full of sadness
Your suffocation is done

In a [?] in panic
Not sure where to run
I hope I will illuminate

Pushed underwater
Confront the monster

Don't you dare look away
I am here as we go to the other side
I'll keep you close to the light
Don't you dare take your eyes off of mine

There are cracks that I didn't see in the ground that was holdi
ng me as we are swallowed by night
Don't you dare take your eyes off of mine

You're my body
I cursed my own
When you said you need me
I was exposed

I love you dearly

Don't you dare look away
I am here as we go to the other side
I'll keep you close to the light
Don't you dare take your eyes off of mine

There are cracks that I didn't see in the ground that was holdi
ng me as we are swallowed by night
Don't you dare take your eyes off of mine

Don't you dare look away
I'll keep you close to the light

Oh, don't you dare look away
I'll keep you close to the light
To the light
