

Trapeze

Dia Frampton

I'll never tell you what I saw
Or how it made me breathe
I'll never repeat what I heard
How long it took me to leave

I'll never tell you what I saw
Or how it made my smile freeze
Cause this world is a whirlwind but I'm holding that trapeze
And I'll never tell you what I saw

I'll never tell you who I loved
Or how they made me free
I'll never tell you how I slept
Back when I was fifteen

I thought that I could just forget
The bricks that have built me
But this world is a whirlwind and I'm holding that trapeze
And I'll never tell you who I loved

But if I could tell you one thing
I would tell you I'm not leaving
And if I could show you one thing
All my mistakes have shaped me into who I am
And who I am just wants to make you home

Ooh ooh ooh ooh (x4)

I'll never tell you why I drive
Into the night and back again
I hardly speak of my home town
My little hands in the cement

I'll never tell you what I saw
Close the door, swallow the key
But this world is a whirlwind and I'm holding that trapeze
Yeah this world keeps on turning, love is carried in a sling
Yeah this world is a whirlwind and I'm holding that trapeze

So I'll never tell you what I saw

Ooh ooh ooh ooh (x5)
