

Read My Scars

Diablo

Soon they will see what I mean
When I've said that stones won't bleed
So that they don't have to waste their lives wondering why
They've been dreaming all these years
All these years I've been hurting
It is my answer to their world, to everything I see

Have you ever seen the weight of the world
crushing someone's soul
You will see me in hell cos' I have opened myself
for this God of emptiness

I have painted it in my flesh
So that the whole world can see it
There is something very cold in me they don't want to believe
I've said stay away from me, from my sick morality
My life goes on without your love, without your prayers now

Read my scars
Read my scars, It's okay for me baby
Read my scars
Read my scars, It's okay for me baby
