

Feels Good

Diamond Head

Hey you, tell momma about things you do, babe
Tell papa how you like to live life for yourself
Tell the world when the thrill is new
That you make me feel good, feel good

Small kiss and I fall right under
This spell of a stolen love, yeah
Natural woman is what you are
Born to make me feel good, feel good

Come on, baby, tell us
Come on, if it feels like love, it's true
Come on, baby, tell us
Come on, if it feels like love, it's you

You make me feel good
You, you make me feel good
You, you make me feel good
And if it feels good, baby, come on
Feels good, baby, come on, feel good too

I tell the world when it's got to be said
One woman is all you needed
Natural thrill is what it is
When she's born to understand and to care
She makes me feel good, make me feel good

Come on, baby, tell us
Come on, if it feels like love, it's true
Come on, baby, tell us
You can make me, you can make me feel good
In the morning

You, you make me feel good
I said, you, you make me feel good
You make me feel good
You make me feel good
You, you make me feel good

Ah, so good, you make me feel good
I said, you, you, you
You should make me feel good
And if it feels good, baby, come on
Feels good, baby, come on, feel good too

Hey you, feel good, feel good, feel good
Do you make me, do you make me
Feel good, feel good, feel good
Do you make me, do you make me
Feel good, feel good, feel good

Feel good, feel good, feel good
'Cause I feel good
