

# This Planet and Me

Diamond Head

Just go easy with it  
This life is planned out to be  
Don't put the lights around me  
All my spirits break free  
So it's now that I've decided  
To hide behind these closed doors  
I'm being pulled every which way  
I can't give anymore

Don't want to be on the radio  
Don't want my picture taken no more  
Don't want to be in the video  
There coming now to steel my soul  
I don't think I'm liked that much  
I'm out of reach and out of touch  
Don't want to be in the picture show  
There coming now to steel my soul

Do you see my true colours?  
Is there a crack in my disguise?  
Deep down beneath the layers  
Where my demons wait to rise  
Don't wanna be a corporate target  
Full of diamond coloured tales  
I'm gonna get me off this planet  
Red lights on systems failed

Don't want to be on the radio  
Don't want my picture taken no more  
Don't want to be in the video  
There coming now to steel my soul  
I don't think I'm liked that much  
I'm out of reach and out of touch  
Don't want to be in the picture show  
There coming now to steel my soul

So I'm leaving now and I wish you luck  
Re-evaluate my life on earth  
I'm gonna stop the world too look and see  
Is it all about this planet and me?  
So I'm leaving now and I wish you luck  
Re-evaluate my life on earth  
I'm gonna stop the world too look and see  
It's all about this planet and me

I'm leaving now  
I'm leaving now  
I wish you luck  
I'm leaving now  
I'm leaving now  
I'm leaving now  
I'm leaving now  
I'm leaving now
