

# Until We Burn

Diamond Head

Born to be kings but defeated by time  
Black Country dreams they were leased for a while  
But the way to glory and love is through pain  
Chasing a world on the ladders made of golden tomes

Until the end the lights will shine  
After it ends the songs survive

Hope is burned into the shadows of our veins  
Though the road winds far over the earth  
Into the sun until we burn

Landslide of demons one poisoned ego burning bright  
The change of the seasons lightning releases new fire  
But the way to glory and love is through pain  
Chasing a world on the ladders made of golden tomes

Until the end the lights will shine  
After it ends the songs survive

Hope is burned into the shadows of our veins  
Though the road winds far over the earth  
Into the sun until we burn

Until the end the lights will shine  
After it ends the songs survive

Hope is burned into the shadows of our veins  
Though the road winds far over the earth  
Into the sun until we burn

Engraved in the songs and the words  
Forevermore until we burn
