

This Is My Life

Diamond Rio

This is my life
Measured in minutes and hours and days
Trying so hard just to win every race
Aw, but it's never been enough
This is my fear
When it's all over, I won't leave a mark
When it's all over, I didn't do my part
To show Your love
But the truth be known
This life that I've known
Was never ever mine anyway
So I give it all back today

This is my life
Take it and use it
I give up the fight
I'd rather lose it
Than be lost without You inside
This is my prayer
Lord where You lead me
I will be there
Surrender completely
My heart and my hands lifted high
Oh, this is my life

This is the day
I face my fears and just set 'em all free
Safe in the knowing that one day I'll be
I'll be going home
But until I do
My eyes are on You
And I'll never ever turn away
Let the heavens hear me say

This is my life
Take it and use it
I give up the fight
I'd rather lose it
Than be lost without You inside
This is my prayer
Lord where You lead me
I will be there
Surrender completely
My heart and my hands lifted high
Oh, this is my life

All to Jesus
I surrender
All to Him I freely give
But the truth be known
This life that I know
Is never really mine anyway
So I give it all back today

This is my life
Take it and use it
I give up the fight

I'd rather lose it
Than be lost without You inside
Oh, this is my prayer
Lord where You lead me
I will be there
Surrender completely
My heart and my hands lifted high
Oh, this is my life
