All my ladies in the club go and put your hands up
In the middle of the floor, we just came to turn it up
We was standing in the line
Tell the DJ turn it up

All the boys now drop that
They just wanna fuck
Is that your chick? Mugging me
Tell your bitch ease up, stop mugging me
All my chicks in here don't run your seat
Cause we'll make this club so ugly
But, but, but we just wanna party
Get fucked up, get naughty
Beyonce shake your body
Work it out, Pilates!
Boy sure see the fat but 90's up
Bend over for the boys behind me
I touch my toes, drop it low
Then I turn it round like a tornado
Like a tornado
Oh shit, there she goes
Don't stress but the boys all go
God damn that bitch is cold
