

Welcome to the Young Life

Diamond

Welcome to the young life
Welcome to the young life
Welcome to the young life
Welcome to the young life

We in the club, pump
Drinking til we get drunk
Throwing money up like
Welcome to the young life
We know everybody
We the life of the party
We 'bout that life, we 'bout that..
Welcome to the young life
We live the fast life
Smoke up all the stash like
It's gon be my last night
Welcome to the young life

If it's cash then I'm with it
Living life with no limits
I'm under 25, young and fly
You hate me, I get it
I got no time for you bitches
I just got time for the digits
Shook them whips and taking trips
Hopped in, I already get it
We can make it with jewels
We make the fellaz all drool
Every time you on the block side I'm the top of the news
Never hated the blues
Shit, I just churk 'em the deuce
And we blowin' in the wind while I'm countin' my jewels

We in the club, pump
Drinking til we get drunk
Throwing money up like
Welcome to the young life
We know everybody
We the life of the party
We 'bout that life, we 'bout that..
Welcome to the young life
We live the fast life
Smoke up all the stash like
It's gon be my last night
Welcome to the young life

It's like fuck it I want it
I'm fuckin' young and I love it
So I admit when I come through I might just seem a bit reckless
Man this shit is the movement like how my body be doin'
All this shit I'm pursuing, I'm having fun - nothing to it

So ready, set - here I come
Looking cute, keep my flaws
Breaking legs, turning heads
In the club, no more kids
Everybody in my home

Smoking loud, that's my perfume
Take a little, pump and smell it
Welcome to the young life

We in the club, pump
Drinking til we get drunk
Throwing money up like
Welcome to the young life
We know everybody
We the life of the party
We 'bout that life, we 'bout that..
Welcome to the young life

Smoke up all the stash like
It's gon be my last night
Welcome to the young life

If you see it I saw'd it
All my custom exotic
If you try to duplicate it then you ain't gon front it

The type getting home to marry
