My Shining Hour

Diana Krall

This moment, this minute
And each second in it
Will leave a glow upon the sky
And as time goes by, it will never die

This will be my shining hour
Calm and happy and bright
In my dreams, your face will flower
Through the darkness of the night

Like the lights of home before me Or an angel, watching oer me This will be my shining hour til Im with you again

(Like the lights of home before me) (or an angel watching oer me) This will be my shining hour Til Im with you again
