

Save Us from Ourselves

Digital Daggers

Daylight, come faster
Shed some light on this
We've been in the dark so long

We prayed for clarity
Unchain, swift release
We've been in the dark so long

Nothing's come to save us
Nothing's come to save us
From ourselves
Nothing's come to save us
Nothing's come to save us
From ourselves

Say it's just a dream
Hunters gathering
Did we sing the wounded song?

They're closing in 'round us
Nowhere but here for us
In the dark where we belong

Nothing's come to save us
Nothing's come to save us
From ourselves
Nothing's come to save us
Nothing's come to save us
From ourselves

We've been in the dark so long
