

Dance In The Fire

Digital Summer

And I'm a slave to your body
Though I try to be strong
But when something's comes easy
It feels to good be wrong
When we play on the edge
There's a chance we could fall
But right now, just right now we have it all

And we dance in the fire
And we laugh at the flames and never learn
With no cares for tomorrow
Cause tonight we just love how it burns

I feel the rhythm of your heart beat
When you're so close to mine
Now this could get a little crazy
But crazy's hard to define
When we play on the edge
There's a chance we could fall
But right now, just right now forget it all

So turn the heat up
I need to feel the burn
It's never hot enough
I wanna feel it hurt
And we dance in the fire
And we laugh cause we never learn
