

Love And Tragedy

Digital Summer

The waves crash down all around me
And consume all the air I breathe
The sirens sing to me in my sleep
A familiar song of love and tragedy
But the sun wont shine were the shadow grows
Yet my heart beats still, so tell me is this real
Tell me is it real

Or is it all a dream
A made up everything
Can you tell me
Is this real
The pain I hold inside
The anger that I feel
Can you tell me
Is this real

The water rises all around me
It fills my lungs and I cant breathe
Another sleepless night, I can hear their screams
Violent cries of love and tragedy
But still the sun wont shine where the shadow grows
Yet my heart beat still, so tell me is this real
Tell me is it real

Is this real
Please just wake me
Up from this bad dream
Why, why did this have to be
please just wake me
Up from everything
