

## Coming Over

Dillon Francis

Is it alright if I come round  
Is it too late if I come now  
Would you stay up to figure this out  
Some way  
If I stay here would you come back  
If I stay cool would you be mad  
Would you want me if I want you  
That way

Cause all I can think about is coming over, coming over  
All I can think about is coming over, coming over  
All I can think about is coming over, coming over

Isn't it strange that every time  
I look at your name I'm suddenly high  
For you to feel the same I would do almost anything  
I'd give away this, give away that  
All of my shoes and all of my hats  
All I need's you and a bit of music

Cause all I can think about is coming over, coming over  
All I can think about is coming over, coming over  
All I can think about is coming over, coming over
