

In Circles

Dima Bilan

We all need friends
Loving somebody don't cost a thing
Don't stop living
Remember, your life is a mature may

No more excuses, stand up
Like comes a time in life, is it love?
Time is moving, catch up
Don't get left behind, try to follow your God

You've got the road in front of you
Stop, get ahead, what you've gonna do?
What you've gonna do and when you move
Don't let it affect, you get better soon

'Cause it get better soon (Better soon)
'Cause it get better soon (Better soon)
'Cause it get better soon
Ooh, and I know that

There'll be times where we don't say: "What's up?"
And we go in circles tryin' to keep in touch
We whisper, sparking between the both of us
Just telling how you feel goes a long way

Back out on the road again
I've got a couple of stops to make
No time to call in
It's kinda hard to communicate

I can't let nothing slow me down
I'm bottling up, won't let my feelings out
I've gotta turn this all around
Don't know where to stop it, I've got to do it now

You've got the road in front of you
Stop, get ahead, what you've gonna do?
And when you move it's up to you
Don't let it affect, you'll get better soon

'Cause it get better soon (Better soon)
'Cause it get better soon (Better soon)
'Cause it get better soon
One day you'll see, we'll be happy

There'll be times where we don't say: "What's up?"
And we go in circles tryin' to keep in touch
We whisper, sparking between the both of us
Just telling how you feel goes a long way (Goes a long way)

Which way do I go?
Because I'm caught between crossroads
I wish I could start all over again
Move again to my heart, and let a little bit of me go
'Cause being my friend goes a long way, so hear me say

There'll be times where we don't say: "What's up?"

And we go in circles tryin' to keep in touch
We whisper, sparking between the both of us
Just telling how you feel goes a long way

There'll be times where we don't say: "What's up?"
And we go in circles tryin' to keep in touch
We whisper, sparking between the both of us
Just telling how you feel goes a long way
