

All I Need

Dimitri Vegas & Like Mike

Like Mike and Gucci

Laying on the front line, vibing to the bass drums
Sipping on a 40
And someone's on the rooftop, lighting up like Snoop Dogg
And it's only Tuesday
I just wanna have a good time in the city shine lights, baby, baby
I don't need, I don't need nothing else
I don't need, I don't need nothing else

We don't have to wake up 'cause we didn't sleep
I still got a full cup of that Hennessy
All my friends by my side
It's all I need in my life
5AM and we still feeling reckless
Piled up in the whip getting breakfast
All my friends by my side
It's all I need in my life

All my friends by my side
It's all I need in my life

I just wanna show you how to win, let me coach ya
I'm just tryna train ya, baby, turn you to my soldier
Tryna help you prosper, I'm a trap prophet
You know they really poppin', they don't really got it
I just wanna see you shop, shop 'til you drop
Pull out with the title top, drop out the lot
She don't wanna leave the Wop, she know the night good
So watch the plot thick, so does Gucci's heart thick

We don't have to wake up 'cause we didn't sleep
I still got a full cup of that Hennessy
All my friends by my side
It's all I need in my life
5AM and we still feeling reckless
Piled up in the whip getting breakfast
All my friends by my side
It's all I need in my life

All my friends by my side
It's all I need in my life

I just wanna have a good time in the city shine lights, baby, baby
I don't need, I don't need nothing else
I don't need, I don't need nothing else

We don't have to wake up 'cause we didn't sleep
I still got a full cup of that Hennessy
All my friends by my side
It's all I need in my life
5AM and we still feeling reckless
Piled up in the whip getting breakfast
All my friends by my side
It's all I need in my life
