

# Along Comes a Spider

Dio

Remember when you only needed no one  
Every day's tomorrow  
And it's all right  
No confessions - not for you  
Forget the things you've done  
It's what you'll do

The first time you're suspicious  
What's that gliding down  
Along comes a spider

Suddenly the world has no more changes  
You've run with an evil woman  
So it's all right  
No more strangers' candy lies  
The light is so much better for your eyes

Now I'm not superstitious  
But every time you've tried  
Along comes a spider

Don't ask why - it's the long way around  
Just go wild

Why do we believe in conversation  
We never seem to listen  
We only hear

Now you don't need permission  
But don't get caught next time  
Along comes a spider  
A spider  
A spider  
Inside her
