

Aces Up Your Sleeve

Dion

You moved up close
You said my name
You said you'd really like to play my game
You [?] sipped my gin
Took my cards and dealt me in
I was told some things I should not have dealing
You got aces up your sleeve

Forget the night that I had planned
What really hard when you dealt my hand
I had to bet I could not bluff
You had to know cuz you saw my stuff
I was young and girl I was so naive
You had aces up your sleeve

Was it the cards girl
Was it the booze
I bet it hard
I put [?]
You done the deal
You shuffled bad
I couldn't see another Jack go past
I was told some things I should not believe yeah
You had aces up your sleeve

You're dealing diamonds
You're breaking hearts girl
Stopped the game when the loving stopped
I was your Joker till the break of dawn
I looked up from my cards and you were gone
I was young and girl I was so naive yeah
You had aces up your sleeve
You moved up close
Said my name
Said you'd really like to play my game
