

In and Out of the Shadows

Dion

In and out of the shadows, at the highway of mistakes
When you get down, you get down to nowhere you pay respects To
higher stakes

In and out of the shadows fake a smile and don't complain
Try and try not to take everything that you
That you see in vain, that you see in vain

Oh that scream in the middle of a dream
Tell me what does it mean for you or for anybody

In and out of the shadows, baby you ain't gonna fold
Even though somebody came and told you the world has long
Been bought and sold

Oh that scream, in the middle of a dream
Tell me what does it mean for you or for anybody

In and out of the shadows, there ain't no place that you can hide
But you can try, try to be humble in your pride
Deep inside, deep inside
