

# Make the Woman Love Me

Dion

Lord, I know I haven't asked  
For much in such a long, long time  
Not since that  
Brand new pair of Levis back  
When I was eight or nine

And I know the world's  
In such a state  
And you've got a lot to do  
But if you ever find yourself  
With a minute or two

Won't you please  
Make the woman love me  
Make the woman see  
I'd be so good for her Lord  
If she'd just let me

Make the woman love me  
Make the woman care  
Just open up her heart Lord  
And I'll take it from there

Lord I know that she needs me  
It's just that she don't know  
And my heart's so full of her  
It's bound to overflow

So if you should have a miracle  
That you wanna do up right  
Won't you take her by the hand Lord  
And show her the light

Won't you please  
Make the woman love me  
Make the woman see  
I'd be so good for her Lord  
If she'd just let me

Make the woman love me  
Make the woman care  
Just open up her heart Lord  
And I'll take it from there
