

# What Can a Miracle Do

Dionne Warwick

What can a miracle do  
But bring you back to me  
So what you don't realize  
Is that so can a memory

I like to live with my memories  
Even though a miracle could bring you back to me  
Cause time would still be time  
And time would take you once again away from me  
Oh yeah

So what can a miracle do  
That I can't do

True it may appear that I'm a fool  
For giving up the chance to see a miracle come true  
But though you can't see  
Love is with me  
It's there in my memories

So all a miracle can do  
Is bring you back to me  
Ah but I can still feel that cold night when you said your love  
was true  
Cause it's right there in my memory

I like to live with my memories  
Even though a miracle could bring you back to me  
Cause time would still be time  
And time would take you away

So what can a miracle do  
When all I need to do is think about  
What I used to say to you  
Oh yeah

So what can a miracle do  
When all I need to do is think about  
What I used to say to you  
Oh yeah

So what can a miracle do  
When all I need to do is think about  
What I used to say to you  
Oh yeah
