

Bottle's Bout Dead

Diplo

One last shot
One more sip
Like it or not, love's on the rocks
Like the smile on her lips
It was good while it lasted
But it's gone when it's gone
No, it ain't hard to see, it's a miracle that we
Made it last this long

This bottle's 'bout dead, just a couple more drops
That open sign's on but it's 'bout to turn off
This watered down dream in the bottom of a glass is all the pro
of we need
Some things don't last and all the words that could've fixed th
is already been said

This bottle's 'bout dead
(This bottle's 'bout dead)

Yeah, we keep on wishing on a neon, stars above the door
Finding bars that we can lean on, that's what they make 'em for
Keep on acting like it isn't, but apparently it is
Ooh, no matter how much we hated this

This bottle's 'bout dead, just a couple more drops
That open sign's on but it's 'bout to turn off
This watered down dream in the bottom of the glass is all the p
roof we need
Some things don't last and all the words that could've fixed th
is already been said
This bottle's 'bout dead, so bottoms up, baby
Here's to the both of us goin' a little crazy in love for a lit
tle while
Ooh, and then going out in style

'Cause this bottle's 'bout dead, just a couple more drops
That open sign's on but it's 'bout to turn off
This watered down dream in the bottom of the glass is all the p
roof we need
Some things don't last and all the words that could've fixed th
is already been said

This bottle's 'bout dead
(This bottle's 'bout dead)
This bottle's 'bout dead
(This bottle's 'bout dead)
