

Get It Right

Diplo

[MØ:]

I am walking down that road
Where did all the flowers go?
They say we're supposed to grow
Learning from the highs and low
All eyes lying on me, oh
Begging me to play the role
'Cause I'm gonna get it right, I'm gonna get it right

They can try to hold me down, but I am
I'm gonna get it right
When the sky is filled with smoke and fire
I'm gonna get it right
All I want is something better in the purple light
They can try to hold me down, but I am
I'm gonna get it right

[Goldlink:]

Switch the lanes, folk though feel the lays
Undercover sweater Balmain, boo cease it
Some of feelin' when I'm feelin' rappin' like a Weezer
Love forgive me he know prayin' when he hit the fan, Jesus
Can't go, Janet ride the pool, I feel it
Almost in my goal but I still hit lose, swimming
Losers up, ain't nobody reaching you, baby
Ain't nobody stepping you, baby

[MØ:]

You try to hold me down, but I am
I'm gonna get it right
When the sky is filled with smoke and fire
I'm gonna get it right
All I want is something better in the purple light
They can try to hold me down, but I am
I'm gonna get it right

I'm gonna get it right
I'm gonna get it right
